What We Offer

✔ Bathing assistance

An essential component of Caregiver/PCA is bathing clients where they are unable to do this independently. The PCA is responsible for ensuring that the hygiene needs of the client are met whether the PCA performs the bath or the client does it their self. The type of bathe given is determined by the client's self-care abilities. There are general types of baths, cleansing and therapeutic.

1. Cleansing Bath- baths are routine client care for personal hygiene. The 5 types of cleansing baths are shower, tub bath, self-help bath, bed bath, complete bed bath and partial bath.

2. Therapeutic- A Physicians order is required for Therapeutic bath. This order or care plan will state the type of bath, body surface to be treated, temperature of water and type of medication solution to be used. This is usually 20- 30 minutes in a tub. Therapeutic can be broken into: hot or warm or cool bath; soak or sitz bath.

✔ Dressing assistance

We will assist the client in choosing clothes to wear, with getting dressed and undressed.

✔ Grooming assistance

Attention to grooming and hygiene helps to build self esteem. It keeps clients in touch with their appearance and maintains body awareness and a sense of identity. Activities include; hair care, shampooing, foot and toe nail care, oral care, shaving and dressing. Foot and Toe Nail Care Assistance-Proper foot and toe nail care is essential for standing and ambulation. Often foot and toe nail care are ignored until a problem occur. These problems may be a result of poorly fitted shoes, inadequate foot and toenail hygiene, incorrect nail trimming and exposure to harsh chemicals. These problems may cause a loss of skin integrity and potential for infection. Oral Care Poor oral hygiene and loss of teeth effects a person social interaction, body image and nutritional intake. Daily oral care is vital to maintaining the integrity of the entire mouth Hair Care Assistance-Hair affects a person's appearance and body image. Hair maintains body temperature.

✔ Joyful companionship

Shopping Assistance – We will work with our clients to prepare a shopping list, accompany them on the trip to the store and assist in driving or arranging transportation. We will aid in pushing the shopping cart, finding and reaching for grocery items, packing grocery in bag, and put items away at home. Accompanying to events or outing – We will assist in keeping calendar events, getting directions and make certain the clients get to the event or outing. If required, we will help out at event/meeting.

✔ Mobility Assistance

If use of a vehicle to move a client from one place to another is required, the PCA has the ability to do so. We also provide assistance with crutches, walker, pushing of a manual wheelchair, clearing a path for a wheelchair, opening doors, maintaining the wheelchair, balancing or general help with walking.
